## A Focus on Character

---

We produce a wide variety of content in different styles, but one of our strengths is in detailed character design and animation.

This is one of the most challenging aspects of digital animation and we like to rise to that challenge.

Creating highly realistic human characters that can emote can be a powerful way to connect with an audience and tell a compelling story.

Very few businesses of our size offer this kind of service and quality.

"Gio is a one-man Pixar. He's also a rarity in this industry: someone who is both talented and reliable. I've never had a better working relationship with anyone as talented as Gio and, after working with him and seeing what he can do, it's doubtful I ever will."

# Testimonials

"tidyBuyer commissioned Talos Creative to make a video that really tells a story about the business. The main ingredient needed was that the viewer had to identify and have some compassion for the main character. Gio managed to execute to perfection. No stone was left unturned to make sure that the quality and substance of the animation fully underpinned the scripted story. We are very proud of the video, and in turn find it very easy to recommend such a talented artist. If you get the chance to work with Gio and his team, please take it!"

No complaints, it all worked out exactly like I hoped it would! Highly Recommended!"
